Every woman deserves
to look and feel fabulous!

Style consultation

\$225 (3 hours)

The Style consultation takes place in the comfort of your own home to help you get the most out of your current wardrobe. I review a selection of each garment type in your wardrobe (ie. 8 skirts, 8 tops etc.) to find which clothes work for you and give you new ideas on how to wear them.

Your shape and colouring are taken into account to put together outfits that flatter you. These are then photographed and sent to you to inspire you for months to come. I identify any key pieces you may be missing which will help bring your outfits together.

I'll share tips on how to give your favourite garments a new lease of life and storing your clothes to ensure they look their best. At the end of your consultation a wish list will be made for future shopping trips whether with me or venturing out on your own.

Complete wardrobe consultation

\$450 (up to 6 hours)

The Complete wardrobe consultation will get your wardrobe into shape! This experience gives you all that is covered in the Style consultation with extra time to cover your entire wardrobe (including all your garments, shoes, bags and accessories). This allows a review each item of clothing and edit of your wardrobe making it meaner and leaner which means less rummaging and frustration for you! At the end of your consultation a wish list will be made for future shopping trips whether with me or venturing out on your own. Immediate results and instant satisfaction guaranteed.

(Complete wardrobe consultation can be split into two sessions)

Personal shopping

\$225 (3 hours)

These days you don't need to be a celebrity to experience personal shopping. You'll be amazed at how civilised shopping can be when someone else is doing the running around for you!

I go with you to your favourite shops (and mine) and work with your budget to select clothes that you will look and feel great in. You'll learn how to shop with confidence and recognise any bad shopping habits to eliminate those mistake purchases that waste time, money and space.

If you've benefitted from the Style or Wardrobe consultation you'll be armed with your bespoke shopping list and eager to see yourself in newly found styles and colours that you feel great in.

If you're a new client we meet (no less than a week) prior to your Personal shopping experience to complete your client profile and tailor your shopping list based on your current needs. Either way, I research the best shops to find what you need to make the most of our time together.

As part the experience I have arranged discount for my clients from a selection of stores and there is absolutely no pressure to buy as I don't receive commission. My loyalty is to you and finding what works best for you.

Doesn't everyone deserve a bit of A-list treatment?
